Ball Machines

#3267

#3267 ACE BASIC

Delivers net-high drives to the baseline, soft lobs to the forecourt and anything in-between. Each sweep automatically delivers a series of up to four balls in three different court directions, allowing you to handle 50% more students at a time in group lessons. 200 ball capacity. 93 lbs.

#3268

#3268

ACE BASIC WITH DIRECTIONAL

Same features as #3267 but includes direction control that has seven built-in directions. Seven numbers across a baseline graphically represent the directions of the shots, from left to right, on a Doubles court. 100 lbs.

#3269 ACE BASIC WITH DIRECTIONAL & HOPPER

Includes a 300-ball capacity hopper. 104 lbs. (Not pictured)

#3277 WEATHERPROOF COVER PLUS

3 lbs. (Not pictured)

#3272 ACE PLUS

A programmable depth-and-spin ball machine for added versatility. 200 ball capacity. 93 lbs. (Not pictured)

#3273 ACE PLUS WITH DIRECTIONAL

Same features as #3272 but includes direction control that has seven built-in directions. 101 lbs. (Not pictured)

#3274

ACE PLUS WITH DIRECTIONAL & HOPPER

Includes a 300-ball capacity

#3274

hopper. 105 lbs.

#3270 GENIE V

Genie V is a computerized version of the ACE Basic model but with the ability to produce over 800,000 patterns each in trajectory (elevation and speed) and in direction, plus an infinite combination of the two. The entire program is visible at the control panel. 300 ball capacity. 112 lbs. (Not pictured but uses similar housing as #3274)

#3277

#3277 BP-F

As with the Ace Basic and Ace Plus, includes ball frequency control, elevation control, variable oscillation to one, two or three lines, and on/off remote control. 225-ball capacity. 70 lbs.

#3278 ALUMALIFT

Lifts any ACE series Playmate into the ultimate serving machine. Aircraft aluminum construction, safe and stable design. Folds down for compact storage. 300 lbs.

#3278

LOB-STER BALL MACHINES

#202
LOB-STER TENNIS DEVELOPER

Compressed air blows ball to you every three seconds; can be altered to 6 or 12 seconds. Ball velocity 75 - 85 mph at top speed. Tray holds 150 balls. Throws balls at trajectory from a line drive to a lob. Standard 120-volt three-wire cord. 23"Hx12"Wx38"L 35 lbs.

#202/4
LOB-STER TENNIS DEVELOPER WITH REMOTE

Same as #202 but with pneumatic remote. 38 lbs. (Not pictured)

#3002
LOB-STER TOURNAMENT MODEL

Same as #202 except with built-in horizontal and vertical oscillator that allows the machine to deliver shots from sideline to sideline or points in-between. One-piece unit. 42 lbs.

#3003
LOB-STER TOURNAMENT MODEL WITH REMOTE

Same as #3002 but with pneumatic remote. 45 lbs. (Not pictured)

#3005
LOB-STER HYBRID BALL MACHINE

Same as #202 except with built-in horizontal oscillation. 42 lbs.

#3007
LOB-STER BALL BUCKET

Holds 48 balls and serves them at 20-55 mph every 3, 6, or 12 seconds. Serves, lobs, volleys or deep drives in any direction, fast or slow. Built-in horizontal random oscillator. 38 lbs.

#3008
LOB-STER ECONOMY BALL BUCKET

Designed for the "no frills" player, the Economy Ball Bucket has the same features as the #3001 but without horizontal random oscillation. Easily transportable, it accurately places the ball in the same position every time. 31 lbs.

All LOB-STER Ball Machines are available with 220 volt wiring.

LOB-STER ACCESSORIES

#3000 LOB-STER COVER
Heavy-duty lined vinyl cover protects LOB-STER machines from the elements. Fits #202, #202A, #3002, #3003, #3005. 3 lbs. (#3009 LOB-STER cover fits #3001, #3008.)

#206 LOB-STER SPIN ADAPTER
Optional spin adapter fits all pneumatic ball machines. Simple adjustment adds topspin, backspin or sidespin to your workout. 1 lb.

#205 EXTENSION CORD
16 gauge, three conductor, 100'. 8 lbs.

#3004 PNEUMATIC REMOTE CONTROL
Works with all LOB-STER machines. 3 lbs.

#206

TENNIS TUTOR BALL MACHINES

#3777

TENNIS TOWER "COMPETITOR CLASSIC-MODEL"

AC-powered ball machine for home or tennis club use. 250-ball capacity. 123 lbs. (Not pictured)

#3754

TENNIS TOWER "COMPETITOR" MODEL

Same as #3171 except with topspin/backspin. (Not pictured)

#3772

TENNIS TOWER "CLUB" MODEL

Same as #3171 except with spin, wireless remote.

#3755

TENNIS TOWER "PROFESSIONAL-MODEL"

Same as #3171 except with spin, remote and 2-line function. (Not pictured)

#3776

TENNIS TUTOR MODEL 1

Compact for exceptional portability. Groundstroke to lob trajectories. 85 mph maximum ball ejection, with ball feed rate of 1.5 to 12 seconds. Built-in oscillator. Standard battery, 2-3 hrs. typ. play time. 150 ball capacity. 42 lbs.

#3777

TENNIS TUTOR MODEL 2

Same as #3176 except with heavy-duty battery, 4-6 hrs. typ. play time. 42 lbs. (Not pictured)

#3778

TENNIS TUTOR MODEL 3

Same as #3176 except with heavy-duty battery and two-function wireless remote control that clips conveniently at the waist. 42 lbs. (Not pictured)

#3779

TENNIS TUTOR MODEL 4

Same as #3176 except with heavy-duty battery, two-function wireless remote and 2-line function that automatically shoots to two preset court positions, allowing you to practice alternating forehand and backhand shots. Also allows instructor to shoot to two lines of students. 42 lbs. (Not pictured)

#3773

TENNIS TUTOR PLUS MODEL 2

Same features as the standard Tennis Tutor #3176 plus dial-controlled topspin and under-spin capability, and heavy-duty battery. Measures about 8" taller. 46 lbs.

#3774

TENNIS TUTOR PLUS MODEL 3

Same as #3173 Tennis Tutor Plus Model 2 except with two-function wireless remote control that clips conveniently at the waist. 46 lbs. (Not pictured)

#3775

TENNIS TUTOR PLUS MODEL 4

Same as #3173 Tennis Tutor Plus Model 2 except two-function wireless remote and 2-line function that automatically shoots to two preset court positions, allowing you to practice alternating forehand and backhand shots. Also allows instructor to shoot to two lines of students. 46 lbs. (Not pictured)

#3180

TENNIS TUTOR COVER

1 lb. (Not pictured)
